Workmanship Warranty

Covenant Roofing & Construction, LLC (“COVENANT”) warrants to the original purchaser (property owner at time work completed as evinced below) that any installation procedures performed will be free from workmanship defects for a period of **Ten (10) years** (“Warranty Period”) after the installed product as determined by manufacturer.

Upon completion of the project, COVENANT will provide all manufacturer warranty information to the original purchaser/property owner. It will be the responsibility of that person to register the warranty if required by the manufacturing company.

This workmanship warranty covers all workmanship defects related to installed work only. COVENANT will provide service without charge, for Warranty Period, after installation of the product if a problem occurs due to workmanship, in accordance with warranty from the manufacturer issued to the buyer. Service shall be rendered by the company between 8:00 am and 5:00 p.m. on weekdays.

In the event of a workmanship defect or a manufacturer’s product defect, please contact our office by phone or in writing. When you first experience a problem, immediate contact is of the utmost importance and may prevent further damage. Please provide a detailed description of the defect, if possible. COVENANT is not responsible for damages caused by the lack of mitigation of damages.

The warranty statements contained in this certificate set forth the only express warranties extended by COVENANT for workmanship, and any other representations and/or warranties made by representatives of COVENANT, if any, must be in writing. This warranty terminates or is void in the event that any work is performed on our installed components during the Warranty Period by anyone other than COVENANT, or by acts of nature causing damage to our installed components, including but not limited to, hail, wind, tornado, hurricane, tree limbs, debris and improper maintenance.
